#### The Old Way

BY DIETING A DANGEROUS

AND USELESS ONE. We say the old way, but really it is a very common one at the present time, and many dyspeptics and physiciaus as well consider the first step to take in attempting to cure indigection is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken, in other words, the starvation plan is supposed by many to be the first essential. The almost certain failure of the starvation cure has been proven time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting to a man suffering from dyspepsia, because indigestion itself

fering from dyspepsia, because indigestion itself starves every organ, every nerve and every fiber

What the dyspeptic wants is abundant nutri-tion, which means plenty of good, wholesome, well-cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted, and this is the method by which they cure the worst cases of dyspepsia, in other words, the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digests it for him. In this way the system is nourished and the over-worked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest \$,000 grains of meat or eggs.

Your druggist will tell you that Stuart's Tablets

is the purest and safest remedy for stomach trou-bles, and every trial makes one more friend for this excellent preparation. Sold at 80 cents for full-sized package at all drug stores. A little book on cause and cure of stomach diseases mailed free by addressing F. A. Stuart
